

MCS-NITROMAG-DOOR INSTALLATION

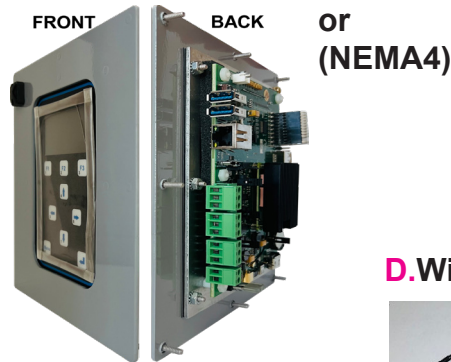

Rev.8

Package Contains:

A. Cutout Template

B. MCS-NITROMAG-DOOR

C. Nut (x8)

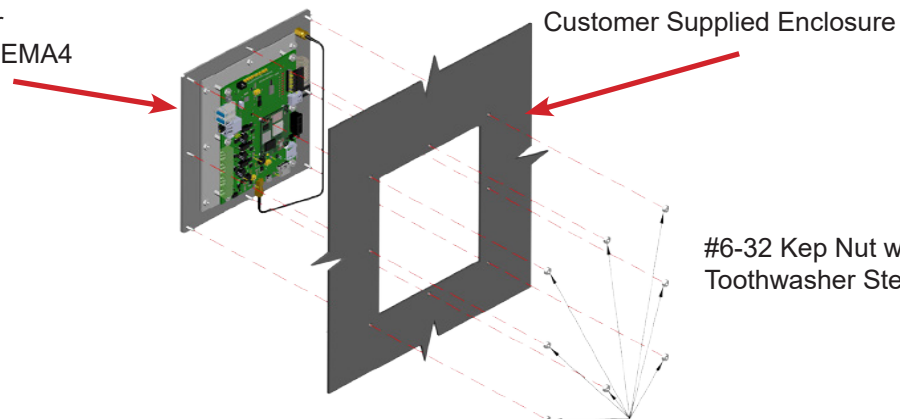

D. Wi-fi Antenna Cable

Install in Customer Supplied Enclosure

MCS-NITROMAG-DOOR or
MCS-NITROMAG-DOOR-NEMA4

1. Position the cutout template (**Part A**) on the customer supplied enclosure. Mark the cutout area and pilot hole locations. Drill the pilot holes, then cut out the indicated area.
2. Install the MCS-NITROMAG-DOOR (**Part B**).
3. Secure it with the 8 #6-32 Kep Nut w/Ext (**Part C**).
4. Connect the Wi-Fi antenna cable (**Part D**) (see **Image 1** below for reference).
5. Remove the clear keypad protector from the MCS-NITROMAG-DOOR (see **Image 2** for reference).
